

Dr. Stella Alexandrova

Editor in Chief and Founder at International Journal of Space Technology Management and Innovation (IJSTMI)

Dr. Stella Alexandrova works as Head of Long Term Research at SESAR (Single European Sky ATM Research) program.

She was working as a Space Business Engineer at RHEA System S.A. a Belgian space company. She had the unique opportunity to work on ESA technology strategy and plans, technology observatory, new business opportunities, projects, proposals preparation and on the development of projects related to space-based applications. She holds a PhD from the Industrial Engineering Group of the Faculty of Aerospace Engineering at TU Delft, the Netherlands and a Master of Science (M.Sc.) in Space Studies from the International Space University (ISU), France.

Dr. Alexandrova is also Editor in Chief and Founder at International Journal of Space Technology Management and Innovation.
