

Chris Lewicki

CEO, Planetary Resources

Mr. Lewicki has been intimately involved with the lifecycle of NASA's Mars Exploration Rovers and the Phoenix Mars Lander.

Lewicki performed system engineering development and participated in assembly, test and launch operations for both Mars missions. He was Flight Director for the rovers Spirit and Opportunity, and the Surface Mission Manager for Phoenix. The recipient of two NASA Exceptional Achievement Medals, Lewicki has an asteroid named in his honor: 13609 Lewicki. Chris holds bachelor's and master's degrees in Aerospace Engineering from the University of Arizona.

At Planetary Resources, Mr. Lewicki is responsible for the strategic development of the company's mission and vision, engagement with customers and the scientific community, serves as technical compass, and leads day to day operations.
